PROJECT TITLE

Personal Digital
Portfolio

AGENDA

- **Problem Statement**
- **Project Overview**
- **End Users**
- **Tools and Technologies**
- **Portfolio design and Layout**
- **Features and Functionality**
- **Results and Screenshots**
- **Conclusion**
- **Github Link**

PROBLEM STATEMENT

- 1 **In today's competitive world, students and professionals need a digital space to showcase their skills, projects, and achievements. Traditional paper resumes are limited in detail and lack interactivity, making it difficult for individuals to stand out. Employers and institutions prefer easily accessible online portfolios that provide a clear overview of a candidate's abilities, certifications, and experiences.**

PROJECT OVERVIEW

- This project is a personal digital portfolio website designed to present my academic qualifications, technical skills, certifications, and achievements in a professional and interactive format.
- The website is built using HTML, CSS, and JavaScript, ensuring responsiveness and user-friendly navigation. It includes sections such as About Me, Education, Skills, Projects, Certifications, and Contact Information.

END USERS

1

To quickly review my skills, education, and certifications.

Helps in evaluating my profile for job opportunities.

2

To assess my academic progress, technical knowledge, and project work.

Useful during academic evaluations, internships, and project reviews.

TOOL AND TECHNOLOGY

1. Frontend Technologies

HTML5 – For structuring the web pages.

CSS3 – For styling and layout design.

JavaScript – For interactivity and dynamic behavior.

2. Development Tools

VS Code – Code editor used for writing and managing code.

Git & GitHub – For version control and hosting the project repository.

3. Deployment Tools

GitHub Pages – For hosting the portfolio website online.

PORTFOLIO DESIGN AND LAYOUT

1 Header / Navigation Bar

Contains links to all major sections (Home, About, Education, Skills, Projects, Certificates, Contact).

Stays fixed for quick navigation.

2 Home / Introduction Section

A welcoming banner with my name, role (e.g., B.Sc. CS Student), and a short tagline.

Includes a professional image/logo.

3 Certificates Section

Uploaded PDFs/images of earned certificates (IBM, MongoDB, SkillsBuild, etc.).

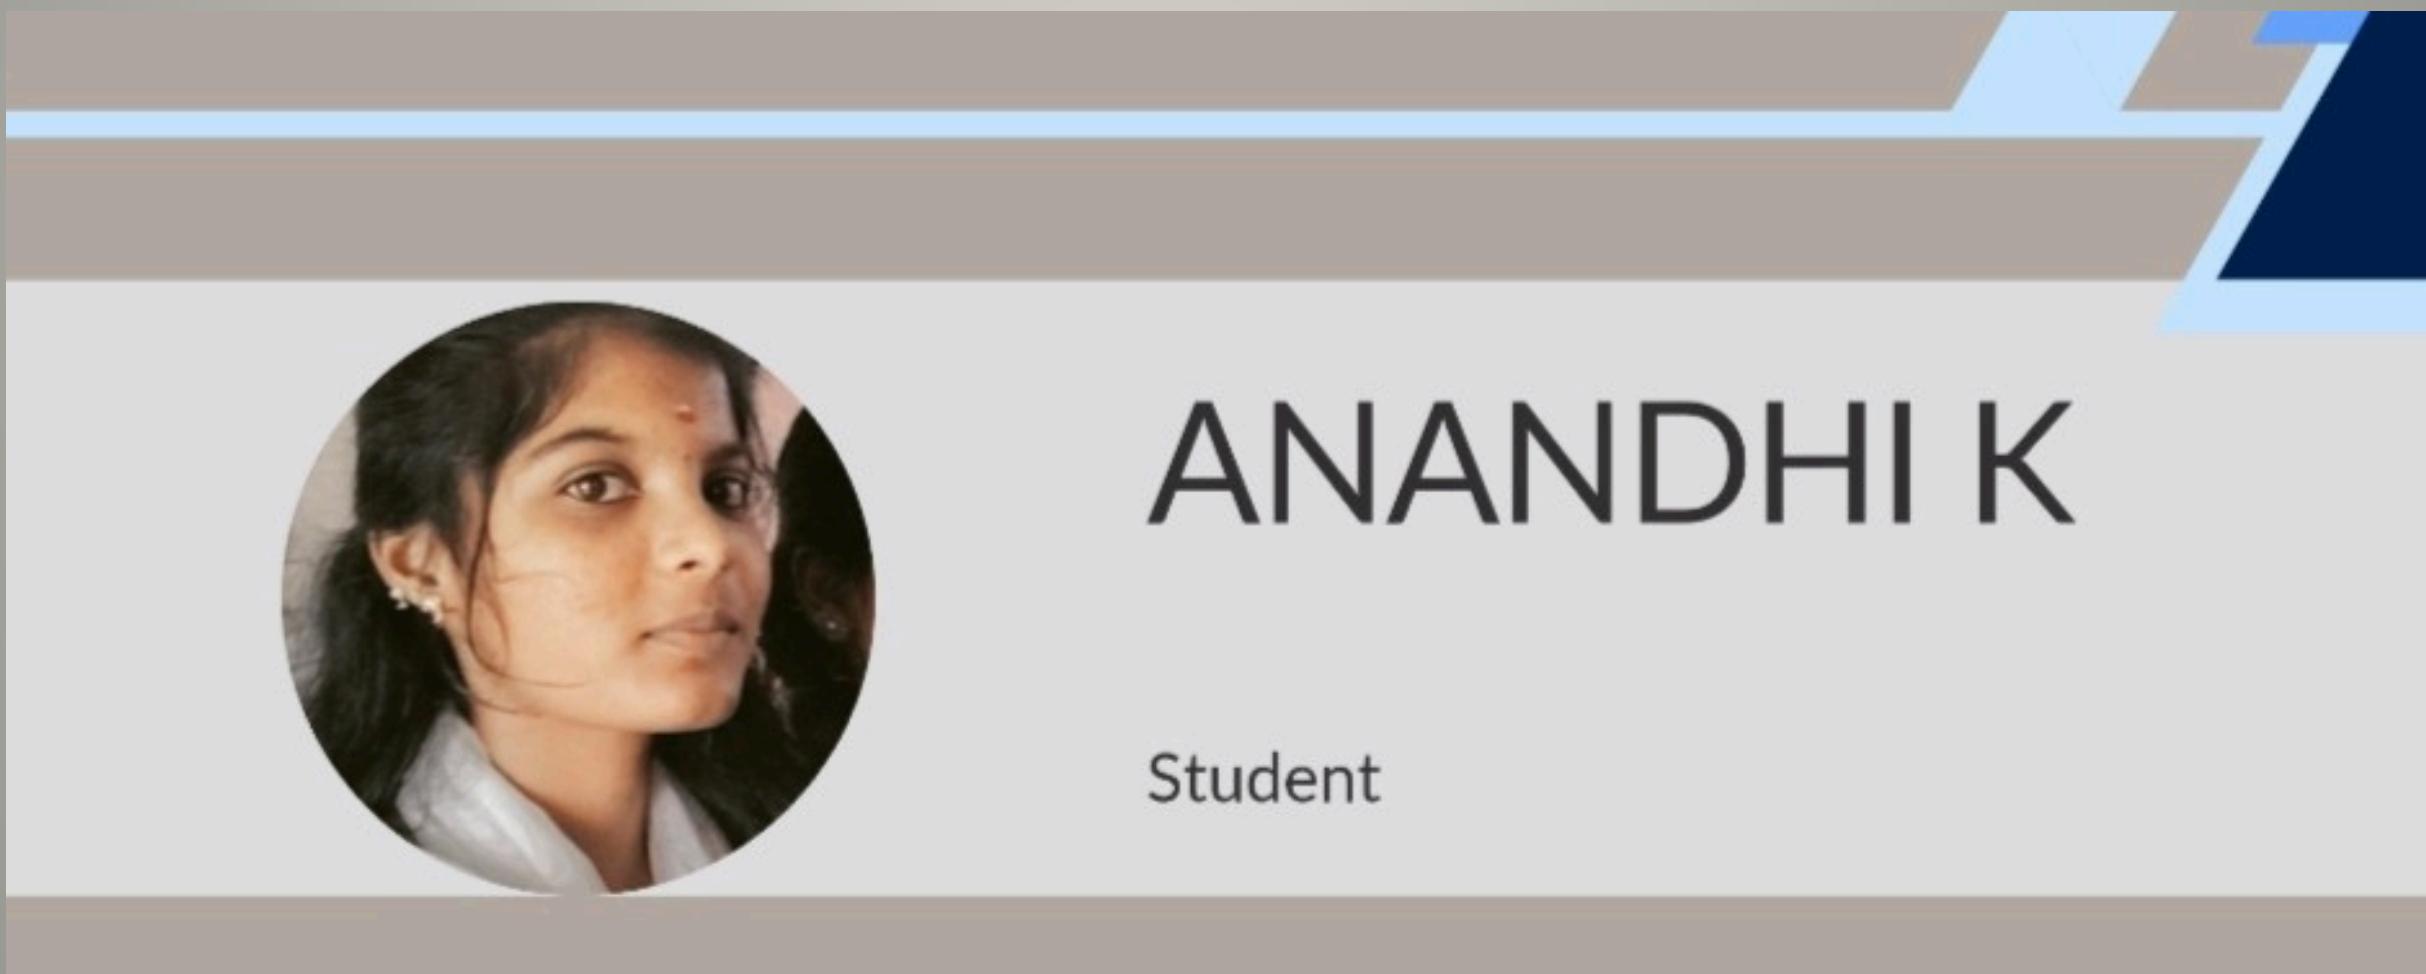

FEATURES AND FUNCTIONALITY

- Responsive design for all devices**
- Easy navigation with smooth scrolling**
- About Me, Education, Skills, Projects & Certificates sections**
- Showcase of projects and uploaded certificates**
- Contact section with email/GitHub/LinkedIn links**
- Simple, clean, and professional UI/UX**

RESULTS AND SCREENSHOTS

Home page

A screenshot of a home page template. At the top, there's a decorative bar with horizontal stripes in light beige, white, and dark blue. Below this is a white header area containing a circular profile picture of a young woman with dark hair and a bindi, looking slightly to the right. To the right of the profile picture, the name "ANANDHI K" is displayed in a large, bold, black sans-serif font. Underneath the name, the word "Student" is written in a smaller, gray sans-serif font. The background of the page is a light gray color.

Student

ABOUT ME

**I am a computer science student with
a strong interest in programming and technology.
I enjoy learning new concepts, solving problems, and
working on projects that improve my skills.
My goal is to gain knowledge, build practical
experience and grow in the field of computer science.**

CONCLUSION

Your portfolio repository is a good start, showcasing your skills, certificates, and achievements through HTML, CSS, and JavaScript. With improvements in design, responsiveness, and deployment, it can become a professional digital portfolio to represent you effectively.
